Gladiolus Primulinus

Not enough can be said about these elegant and beautiful strains of gladiolus, but they must be Primulinus; the stem must be in proportion to the flower. We have kept our strain Primulinus, and also kept the elegance and the rare and beautiful oriental colors; and for that reason we have one of the finest and unequalled collections in existence. They are not very much seen yet, but they are the coming gladiolus. Not that they will displace the large hybrids varieties, but the demand will increase very fast and steadily, as nothing is more beautiful than a vase or centerpiece of those gladiolus.

	per doz.	per 100	per 1000
--	-------------	------------	-------------

And just the same as with any other strain of flowers, one form is more artistically or better shaped than the other, and so the same with the colors, and therefore the most of the varieties have the advantage over the mixture.

They are strong growers and rapid multipliers, and a great many bulblets blossom the first year. My *Primulinus* were awarded first prizes at the shows in Buffalo and Detroit.

I can advise anybody to buy a few, and they will never regret it. The following collection is all of the finest varieties:

Nothing is more beautiful than my
Gladiolus Primulinus with their artistic-
ally arranged flowers and their oriental
colors.

Nothing is more bright and brilliant
than my Gladiolus Chautauqua Red.
